LAIBA MANZOOR

MERN-STACK WEB DEVELOPER

Faisalabad, Pakistan | https://github.com/laybamanzoor | laibamanzoor08@gmail.com

SUMMARY

Self-taught Web Developer skilled in MERN Stack with Python. Built 15+ projects, including BanoQabil ERP System. I build websites that automate businesses. Helping businesses grow and turn them into revenue engines.

PROFESSIONAL EXPERIENCE

Virtual Executives **March 2026 - Present**

- Developed and maintained responsive web applications using React.js, Node.js, and MongoDB as part of the MERN stack.
- Collaborated with team members to design and implement RESTful APIs for smooth frontend-backend integration.
- Debugged and optimized the existing codebase, improving application performance and user experience.

Bano Qabil Faisalabad **2025-2026**

- Designed and developed responsive web interfaces using React.js, integrated with Node.js and MongoDB for full-stack functionality.
- Worked closely with the development team to build and integrate RESTful APIs, ensuring seamless communication between the frontend and backend.

Tech Tornix Solutions **2025**

- Underwent training in Web Development, learning frontend with React.js.
- Completed practical exercises and projects to strengthen my understanding of front-end development.

SKILLS

- Frontend: React.js, Next.js, JavaScript (ES6+),
- Backend: Node.js, Express.js, Python (AI services), RESTful APIs
- Database: MongoDB, Supabase
- Tools: Git/GitHub, Postman, VS Code, Vercel, Nginx
- Testing: API testing with Postman, manual & cross-browser testing, DevTools debugging
